

ZAP Community Online

We have had great success in recently adapting our ZAP resilience programmes for children, parents and carers so that they can be delivered in a virtual learning environment. ZAP Community Online is a FREE one hour workshop for young people aged 9-16 who are dealing with a bullying situation, or have experienced bullying. ZAP provides young people with a range of tools to increase assertiveness, build confidence and help manage bullying situations. It is expected that parents or carers will be present with their children during the morning session. As part of ZAP Community Online we also provide a supporting session for parents and carers.
